

Volunteers Needed for Research Study on the Experience of Diabetes Self-Management during COVID-19

Study for adults managing type 2 diabetes during COVID-19

The purpose of this study is to describe the experience of adults using diabetes self-management and to identify challenges to diabetes care stemming from the COVID-19 pandemic.

Why participate?

- You may help others who are experiencing challenges receiving diabetes care in the future
- You will be compensated \$25 for your time and participation
