About Our Agency

La Paloma Family Services is dedicated to helping children overcome the challenges of abuse, neglect, and abandonment by providing them with the support they need to thrive. As a leading nonprofit family service agency in southern Arizona, La Paloma recruits, trains, and supports foster parents who can offer safe, structured, and nurturing environments for displaced children.

We guide families through the licensing process and provide ongoing support, including respite care, foster parent support groups, advanced training, and in-home services. To ensure successful placements, every family is assigned a foster care licensing specialist who offers support, guidance, and advocacy throughout their journey.

Why Become a foster or adoptive parent?

- **Every child deserves a loving and nurturing home.**
- **Every year** in Arizona approximately **3,600 children are removed from their homes and need a place to stay.**
- There are currently **14,00 children in care in Arizona.**
- More than **1,400** children are currently in group homes.
- **Sibling groups** - often all children have for support, **are traumatized even further if separated and placed into different homes.**
- Pima County has seen a large increase of children coming into foster care. **Homes are needed to care for children of all ages** until reunification with their bio families if possible.

Types of Foster Care

Regular Foster Care

Foster care provides children with the stability and love they need during challenging times. By becoming a foster care parent, you offer a full time safe haven where a child can grow, heal, and thrive. It's an opportunity to make a life-changing impact, giving hope and support to children and families when they need it most.

Your kindness and dedication can help shape a brighter future for a child, turning their challenges into possibilities and help increase successful reunifications.

Therapeutic

Therapeutic foster care (TFC) is a paid foster care arrangement that provides a safe, structured, and nurturing environment for children and young people with medical, emotional, behavioral, or mental health needs.

Respite

Respite care offers caregivers a vital break, providing them with the time to rest and recharge. By becoming a respite care provider, you make a meaningful difference in someone's life, offering support when it's needed most.

Though the pay is minimal, the rewards are profound—your compassion and dedication bring comfort and relief to families, making a real and lasting impact in your community.
