

Rachel's Vineyard is an extraordinary healing opportunity for *any* person who struggles with emotional and spiritual pain of traumatic pregnancy loss, whether through abortion or miscarriage. Our weekend retreats are a unique and effective process specifically designed to help one experience God's mercy and compassion in a safe, confidential, and non-judgmental group environment. Here, you can grieve your loss while addressing and releasing deep feelings of anger, shame, and guilt. This process is especially beneficial for those who struggle with self-forgiveness or forgiveness of others. We also welcome individuals who worked in the abortion industry to heal from their own wounds. The weekend retreat is an opportunity for your soul to find its voice, transforming past pain into hope. Rachel's Vineyard is a "therapy for the soul" that combines creative and therapeutic processes for both psychological and spiritual healing.
